1. The applicant is hereby notified that this International Preliminary Examining Authority transmits herewith the international preliminary examination report and its annexes, if any, established on the international application.
2. A copy of the report and its annexes, if any, is being transmitted to the International Bureau for communication to all the elected Offices.
3. Where required by any of the elected Offices, the International Bureau will prepare an English translation of the report (but not of any annexes) and will transmit such translation to those Offices.

4. REMINDER

The applicant must enter the national phase before each elected Office by performing certain acts (filing translations and paying national fees) within 30 months from the priority date (or later in some Offices)(Article 39(1))(see also the reminder sent by the International Bureau with Form PCT/IB/301).

Where a translation of the international application must be furnished to an elected Office, that translation must contain a translation of any annexes to the international preliminary examination report. It is the applicant's responsibility to prepare and furnish such translation directly to each elected Office concerned.

For further details on the applicable time limits and requirements of the elected Offices, see Volume II of the PCT Applicant's Guide.

2. CITATIONS AND EXPLANATIONS

Claims 1-31 meet the criteria set out in PCT Article 33(2)-(4), because the prior art does not teach or fairly suggest a method for screening a racehorse candidate. The claimed invention is directed to obtaining a width measurement of the ventricular septal wall of a racehorse candidate and comparing said measurement to a collection of measurements from a group of horses. Additional claims are directed to a method of screening a racehorse candidate to select a high earner router including obtaining a measurement of the cross-sectional area of the left ventricle in systole and the cross-sectional area of the left ventricle in diastole, obtaining a measurement of the height weight of the racehorse candidate, and comparing said measurements to a collection of measurements from a group of horses.
